

WAGNER

High Quality Lubricants

Sole distribution partnership, Bangladesh

German-engineered lubricants for cars, bikes, trucks and industry. We are looking for one partner to build the brand nationwide.

Partner presentation · 2026

Built by an engineer to cut wear to the minimum

Founder Walter Wagner spent more than 25 years developing oils that lower maintenance costs by reducing friction and wear.

25+ yrs

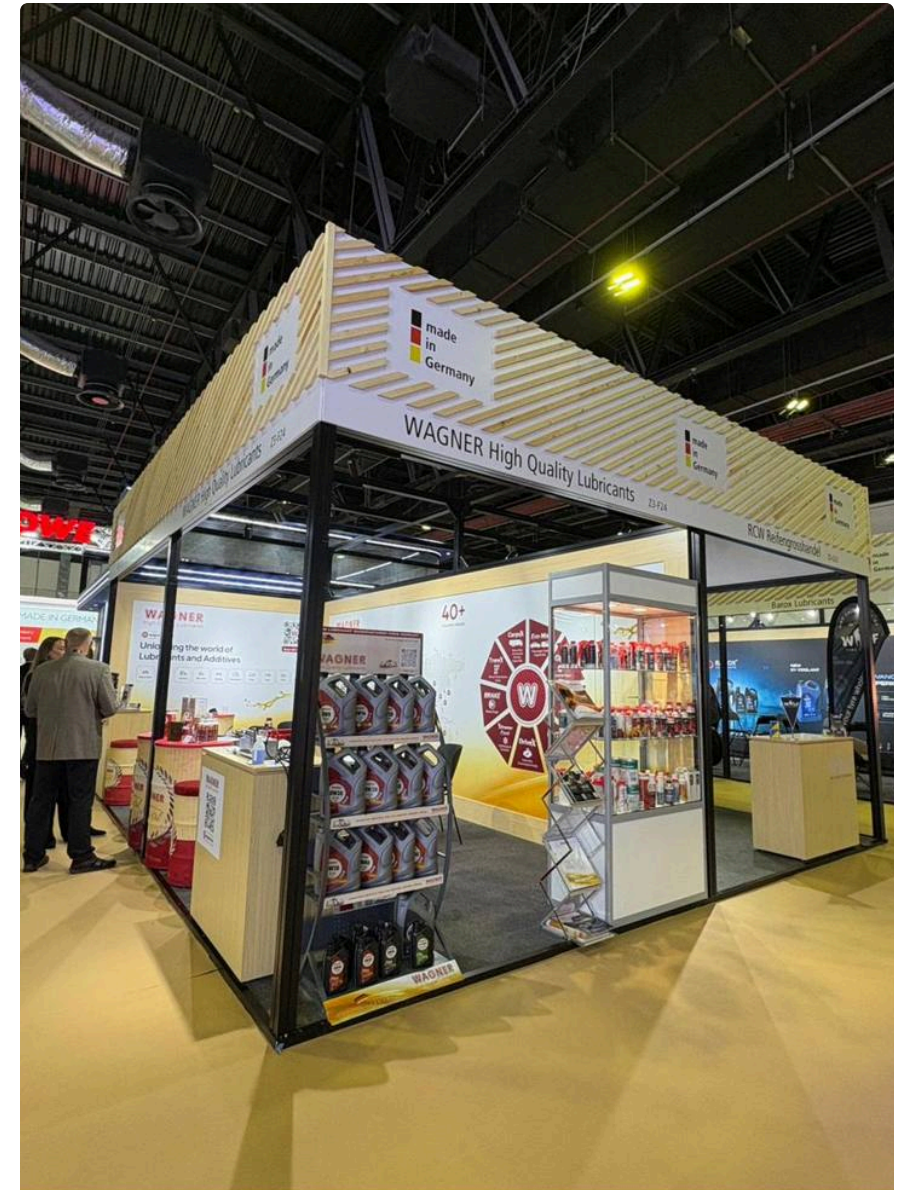

of lubrication research behind the range

9

product families, from motor oils to coolants

1L-208L

packs for retail, workshop and fleet buyers

Bangladesh runs hot, heavy and on two wheels

A growing vehicle fleet working in heat, humidity and stop-start traffic needs better protection, and buyers increasingly want a brand they can trust.

Harsh conditions

High ambient temperatures and heavy loads break down ordinary oils faster. Wagner's formulations are designed for hot regions and high-load use.

Fleet growth

Ride-hailing bikes, logistics trucks, construction equipment and generators all add recurring oil demand.

Trust gap

Counterfeit and adulterated oil is a real concern for workshops. A single authorised channel with verified stock is a selling point.

One brand for every engine in the workshop

Passenger car engine oils

EvoMaX

Fully and semi-synthetic, 5W-30 SP to 20W-50, gasoline and diesel

Heavy-duty diesel oils

CargoX

CI-4 / E7 grades for trucks, buses, mining and construction

Motorcycle oils

MotoX 4T & 2T

JASO MA-2 wet-clutch oils, 10W-40 to 20W-50, plus 2T

Manual transmission fluids

TransX

GL-4 and GL-5 gear oils for cars, LCVs and trucks

Automatic transmission fluids

ATF range

For modern automatic gearboxes and power steering

Hydraulic oils

High-performance range

For construction, agricultural and industrial hydraulics

Industrial gear oils

Industrial range

For factory gearboxes and heavy machinery

Brake fluids

Advanced range

DOT-rated fluids for cars and motorcycles

Antifreeze & coolants

Xtreme Cool

Premixed 33% and 50%, free of phosphates, silicates and nitrites

Available in

1L

4L

5L

20L

208L

Four products to lead the launch

Start with the grades that match Bangladesh's biggest vehicle segments, then widen the range as the network grows.

10W-40

MotoX 4T

For the country's huge commuter and ride-hailing bike fleet. Protects engine and wet clutch at high RPM and heat.

API SN, JASO MA-2

15W-40

CargoX Diesel

For trucks, buses and construction equipment, including engines with EGR and DPF.

API CI-4, ACEA E7, Cummins, Volvo, MAN

5W-30

EvoMaX SP

Fully synthetic for modern turbo and direct-injection cars, including Japanese models common on local roads.

API SP, ILSAC GF-6A

33%

Xtreme Cool

Premixed coolant that is easy for workshops to sell alongside every oil service.

BS6580, SAE J1034, ASTM 3306

Approved to the specs that fleet managers check

Wagner products carry international standards and OEM recommendations, giving your sales team a clear answer when buyers compare against global majors.

Cummins	Volvo VDS-3	MAN	Mercedes-Benz	Deutz	Mack
Detroit Diesel	Renault Trucks	ZF	BMW	Ford	GM

Engine oil standards

API SP, SN, CI-4 and ILSAC GF-6A, plus ACEA A3/B4 and E7.

Motorcycle standards

JASO MA-2 for wet clutches and JASO FD for 2-stroke engines.

Coolant standards

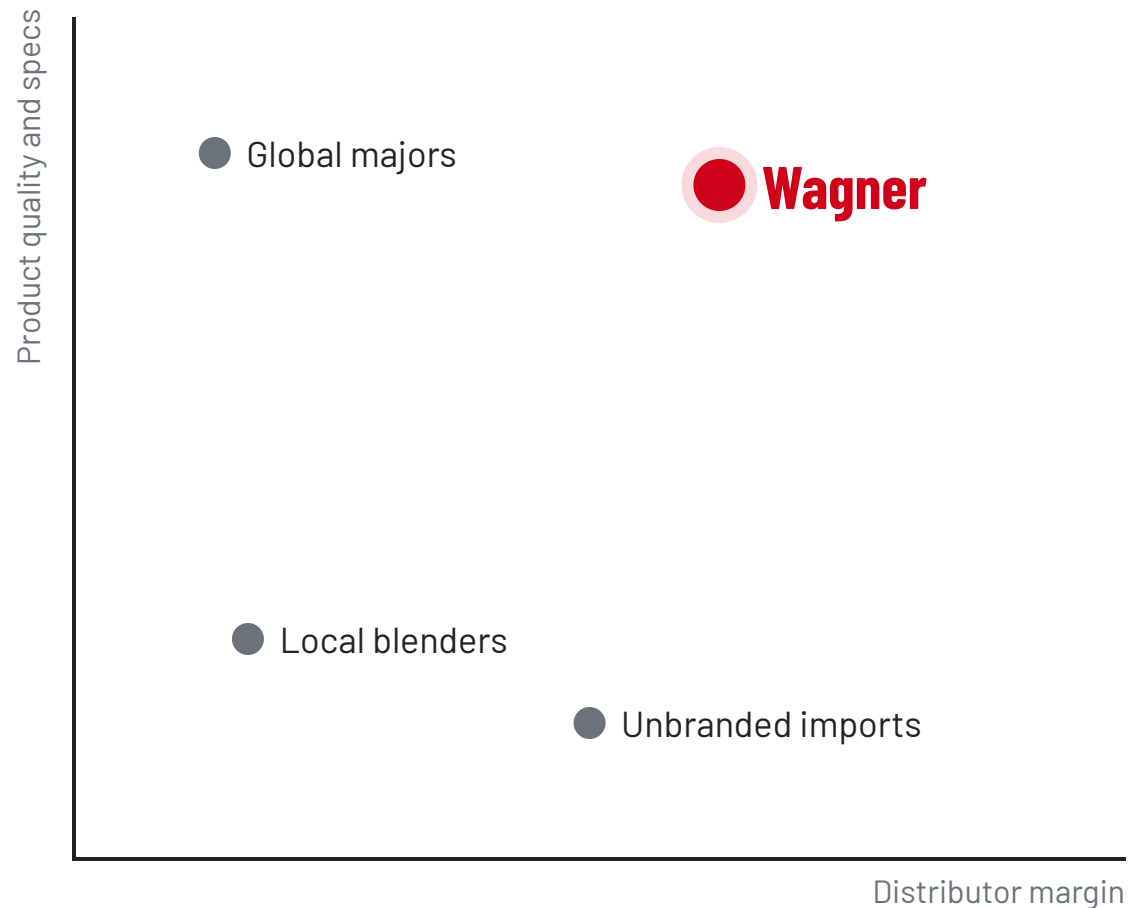

BS6580, SAE J1034 and ASTM 3306/4985, with MAN, MB and VW group approvals.

Already building partnerships across the region

At Automechanika Dubai in December 2024, Wagner met distributors and signed partners from across the Middle East and beyond.

Premium quality, better economics

Against global majors

Comparable specs and OEM approvals, with room for a healthier distributor margin and a partner who gets real attention.

Against local and unbranded oils

German brand credibility and certified quality that workshops can recommend with confidence.

For the distributor

A brand you own the market for, rather than one of several dealers fighting on price.

What sole distribution means for you

One partner holds the Wagner brand for Bangladesh. Your investment in building the market stays yours.

Territory

Exclusive rights across all of Bangladesh, all channels / specified channels

Term

Multi-year agreement, renewable on meeting agreed targets

Protection

No other importer appointed; Wagner refers all local enquiries to you and acts against parallel imports

Range

Access to the full Wagner catalogue, with launch focus on the four hero products

Review

Regular joint performance reviews against the agreed plan

What Wagner brings to the partnership

Pricing

Competitive distributor pricing with volume tiers; payment and credit terms

Marketing

Launch marketing support, POS materials, shelf racks and co-branded signage

Training

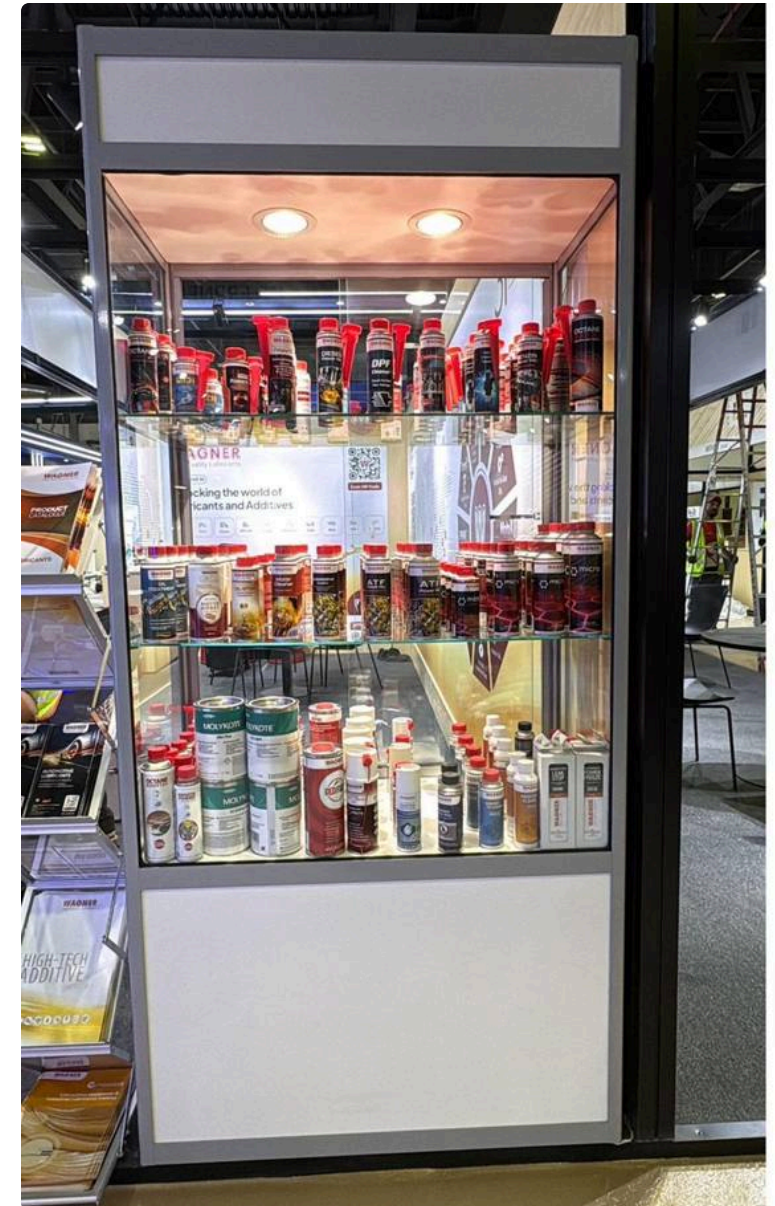

Product and technical training for your sales team and partner mechanics

Launch stock

Samples and demo units for key workshops and fleet trials

Local support

A dedicated country manager in Dhaka working alongside your team

What we ask of our partner

Clear commitments on both sides make exclusivity work.

Volume	Minimum order of 600,000 litres per year
---------------	---

Coverage	Steady expansion of districts and active workshop and retail outlets, starting with Dhaka and Chattogram
-----------------	--

Team	A dedicated Wagner sales lead and field sales team
-------------	--

Operations	Proper warehousing, stock rotation and handling of all imports and local compliance
-------------------	---

Reporting	Monthly sell-in, sell-out and stock reports shared with Wagner
------------------	--

A phased route to national coverage

1

Months 1-6

Launch in the big two

- Dhaka and Chattogram workshops and auto-parts markets
- Four hero products in retail packs
- Mechanic training and in-shop branding

2

Months 7-12

Fleets and divisional cities

- Trials with logistics, bus and ride-hailing fleets
- Expand to Sylhet, Khulna, Rajshahi and Gazipur
- Add 20L and 208L bulk packs

3

Year 2

Full range and industry

- Hydraulic and industrial gear oils for factories and construction
- Transmission fluids, brake fluids and coolants
- District-level sub-dealer network

The partner we are looking for

We are selecting one company. These are the strengths that matter most.

Automotive network

Existing relationships with workshops, auto-parts retailers and fleet operators

Financial strength

Capacity to fund opening stock, credit to dealers and launch activity

Sales team

Field sales staff who can sell on technical quality, not only on price

Import experience

A track record of importing and clearing lubricants or automotive products

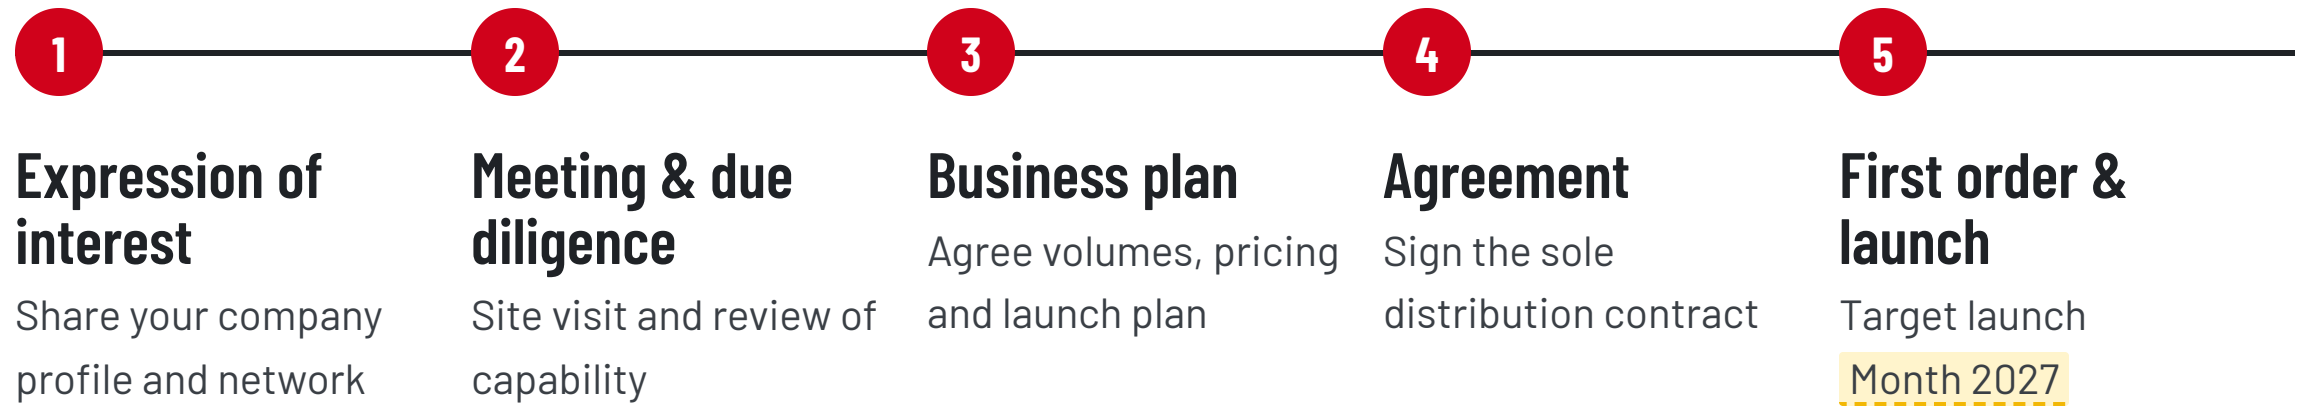

Warehousing

Suitable storage in Dhaka and ideally Chattogram, with delivery capability

Long-term commitment

Willingness to build a brand over years, not just trade stock

Next steps

Let's build Wagner in Bangladesh together.
